

A GOOD DAY'S WORK

The Senate Completes the Sugar Schedule.

AGRICULTURE NEXT IN ORDER

Prospect of Early Action on the Tariff Bill as a Whole.

Hawaiian Treaty.

WASHINGTON, June 15.—The senate made a great stride forward today by completing the consideration of the sugar schedule of the tariff bill, except the provision relating to Hawaii, which went over. This schedule has been the storm center of the entire bill, and with it disposed of there is a better prospect for speedy action in the bill as a whole. The first paragraph of the sugar schedule has served to bring out all the opposers and the test votes, and when this was passed early today the other paragraphs of the schedule were agreed to without further opposition. As agreed to, the schedule places on sugar not above No. 16 duty 1 cent per pound, and .03 of a cent for every degree above 75, and on sugars above No. 16 duty standard 1.5 cents per pound, but on sugars tested below 75 degrees 1-10 cent per pound and so on. The amendment was defeated, 32 to 55.

The Pettigrew amendment relating to the Hawaiian treaty was taken up and discussed at length. It developed considerable divergence of view on both sides of the chamber, the two Hawaiian senators, Messrs. Morgan and Pettigrew, joining Mr. Hoar in opposition.

Mr. Allison finally tested the passage of the senate by moving to table the amendment, which motion prevailed, 55 yeas, 32 nays. The Hawaiian senators, Messrs. Morgan and Pettigrew, then moved to reconsider the vote, which motion was defeated, 32 yeas, 55 nays.

Consideration of the agricultural schedule was resumed, the Hawaiian paragraph being agreed to as reported.

During the sugar schedule debate Mr. White of California criticized Mr. Allison's figures, saying they were incorrect throughout. He turned to the records of the Hawaiian convention on former schedules. He quoted Mr. Hoar's statement four years ago as to the Hawaiian sugar schedule, and said that the Hawaiian sugar schedule was to be turned to the Hawaiian convention for their consideration, which was also quoted, and said that the Hawaiian senators were so hopelessly under the influence of the sugar trust that the American people were humiliated.

Mr. Allison's motion striking out the Hawaiian paragraph in paragraph 206 was then agreed to without opposition.

Mr. Allison moved to insert a new paragraph, "206 1/2, that the duties on molasses, sugar, and other articles of commerce, shall be reduced by the following percentages: shall be one-tenth of 1 cent per pound less than those imposed by the preceding paragraph on corresponding tests of sugar."

It was agreed to without objection. The other sugar paragraphs, 207, 208 and 209 were agreed to as reported.

This brought the senate to the end of the sugar schedule, the Hawaiian provision being the only one to have been amended relative to the treaty voted on as a part of the sugar schedule. He said that this anti-treaty policy had been a plank of the Republican party up to the time of the St. Louis convention, when it was jettisoned as the platform.

"I think," exclaimed Mr. Pettigrew, "that the two debates on sugar—now and three years ago—justify the existence of a new party."

Mr. Morgan of Alabama pointed out what he regarded as fatal defects of the amendment. He regarded the existing anti-treaty law, by the recent decision of the United States supreme court, as the real remedy against the sugar trust.

Mr. Allison moved to lay the Pettigrew amendment on the table. This specially developed something of a breeze. Mr. Clifton of Texas moved an amendment to perfect the procedure under the Pettigrew amendment.

Senators agreed to perfect the amendment. Mr. Allison insisted on testing the same of the senate on this motion. The vote was 35 yeas, 32 nays.

At 5 o'clock the senate adjourned.

ANTI-TRUST AMENDMENTS.

Pettigrew, Clifton and Pascoe wish to improve the Tariff Bill.

WASHINGTON, June 15.—Immediately after Senator Pettigrew's anti-trust amendment to the tariff bill was laid on the table today he gave notice of another amendment of the same character in the shape of a proviso, as follows:

"That none of the duties on articles of commerce provided for in this act shall apply to any articles or commodities the sale or manufacture of which is controlled by trusts in this country."

Senator Clifton of Texas also offered an anti-trust amendment, as follows:

"If any manufacturer, dealer, collector or other person, knowing that any article or articles of like character upon which duties are levied under this act are manufactured or sold in violation of the provisions of the act, shall send or transmit any such article from one state to another, such manufacturer, dealer or other person shall be liable to a fine of not more than three years."

Senator Pascoe gave notice of an amendment which differs from Senator Pettigrew's original amendment only in detail, principally as to the means of enforcement of a trust. One of the provisions requires the court to determine whether a trust exists to the extent of the material or article to be taxed. In case of a trust, the secretary of the interior is to make an order directing the customs officers to permit such admission free of duty.

HAWAIIAN TREATY.

Ratification by the Senate Will Annex the Islands.

WASHINGTON, June 15.—The suggested course of procedure when the Hawaiian annexation treaty is sent to

BARNATO NEEDED REST

His Mind Was Rapidly Failing Him.

SOUGHT "SOLACE" TOO OFTEN

The "Kaffir King's" Tragic End Must Cause Ruin Among Small Investors.

New York, June 16.—A dispatch to the World from London says: Barney Barnato's suicide must cause widespread ruin among small investors. They had pinned their faith to him. The big speculators, having had inside knowledge of his nervous condition, have either cleared out or been handling his stock with profit. Barnato's tragic end has convinced the public here of the utter failure of the South African man's investments, which now easily ranks as the biggest speculation scheme on record.

Barnato securities were quoted eight months ago as a capital value of \$12,000,000, \$80,000,000, but in the last six months they had fallen to about \$3,000,000, \$15,000,000, though they recently improved on better accounts from South Africa.

Mrs. Joel Barnato's sister, told the World correspondent last night, before anything was known to her of the death, that Barnato intended to leave London for a month's rest, as his health was not such as to render his return to London advisable.

No secret is made of the fact that his break down was accelerated by heavy drinking, which began when the Kaffir king succeeded, even before his departure for South Africa, which was hurried and private. His mind showed signs of derangement the day he left London, and on his return he was found to be in a state of mental collapse.

His responsibilities weighed heavily on his mind and he sought "solace" too frequently. His naturally robust constitution had been undermined by his laborious, exciting life, and symptoms of derangement of the brain manifested themselves. His family and friends became alarmed at the probable effect on his securities if this were known, as they were believed to be dependent on his personal security.

So they used every effort to get him out of the Cape and place him in seclusion for a time in the hope that he would recover. He did not want to leave London, but by a ruse they induced him to go to the Cape, and he was kept talking in the cabin until the ship had parted with the tender. He was then shipped away against his will. This explains a story, much talked of at the time and now revived, that he went the last time to South Africa as an unexpected guest of the Cape parliament.

His condition became worse instead of better, and he was finally taken to a hospital at Johannesburg about six weeks ago, but it was attributed to temporary causes. His friends knew better, however, and a good deal of sympathy was shown for him. He was finally taken to a hospital at Johannesburg about six weeks ago, but it was attributed to temporary causes.

His condition became worse instead of better, and he was finally taken to a hospital at Johannesburg about six weeks ago, but it was attributed to temporary causes.

GENERAL MILES IN LONDON.

Returns From His Visit to the Greek and Turkish Armies.

LONDON, June 15.—General Nelson A. Miles, who will represent the United States army at the Queen's Jubilee, and Rear Admiral J. N. Miller, who will represent the United States navy upon the same occasion, have arrived in this city. General Miles, Admiral Miller, their staffs and Mrs. Miles were the guests at dinner this evening of White Hall, special envoy of the United States at the Jubilee.

General Miles, in addition to visiting the Turkish and Greek armies, inspected the ordnance, made at the Armstrong factory at Napier, for the Italian, Spanish and Argentine governments. He also inspected the gun factories and coast defenses of Austria, Italy and France, and was courteously treated everywhere.

General Miles did not find any of the governments active in regard to their military equipment. He thinks Edme Pasha is a great general and that his troops are a fine lot of men. The prospect of peace, but they are good soldiers and the junior officers and men showed a wonderful devotion to their cause.

GOOD SQUAWS NOW.

Fearful of the New Law Relating to Polygamy.

PERRY, O. T., June 15.—The Cheyenne and Arapahoe Indians were brought up over the new law which goes into effect July 1st, relating to polygamy. After that time each of the forty Cheyenne Indians who have more than one wife will have to choose one of the two, three or five wives that he has.

The interest between the squaws, who have become enlightened to their situation, has become intense. Every squaw who wants to remain with her husband doing her best to please him as she will be the lucky wife. There are forty of these polygamists, and in all they have over 100 squaws.

WANTED—

A REMARKABLE RUN.

GREAT SPEED OF A TRAIN FOR A LONG DISTANCE.

Wonderful if Not Unprecedented Time From Chicago to a Train Hired by a Passenger to Reach a Dying Son—1 Mile in 30 at 75 Miles an Hour.

News came from Denver that the day of a remarkable railroad run made by a special train which arrived at Denver on Monday morning from Chicago and made a record which appeared to have been equalled for a distance.

The train had been hired by J. J. Mahan, a broker, who was trying to reach the bedside of his 23-year-old son, who lay dying at Denver.

Death was the race for Mr. Mahan's son expired just about the time his train entered the borders of Colorado, and three hours before he arrived at Denver.

The train traveled over the Chicago, Burlington and Quincy route to Pacific Junction, and then over the Burlington and Missouri route to Denver. Everything along the road was cleared for its passage. The total run is figured to be 1,020 miles, according to the railroad's own tables, and the distance was run from station to station in 18 hours and 52 minutes. This is a little more than an average of 64 miles an hour for the whole run.

This is not only the fastest run on record for such a distance, but also appears to have been one of the few such trips ever made with a private train, but not the only one.

To realize what such a flying trip means it might be well to compare the run with some of the long railroad runs that have been made upon the regular lines.

The New York Central and Hudson River railroad claims to have made the record with its train from New York to Buffalo on Sept. 14, 1891. The train consisted of an engine and two Wagner palace cars and a Central private car, and weighed altogether about 400,000 pounds.

The run from New York to Albany, 141 miles, was made with a stop in 140 minutes, that is, at 48 miles an hour. Albany to Syracuse in 140 minutes, that is, from Syracuse to East Buffalo, 246 miles, in 177 minutes 34 seconds.

Including the stops, the whole time of the trip was 439 minutes, and the distance was 336 1/2 miles, or a little less than 60 miles an hour. Since then this road made a new record, on Sept. 17, 1895, when, with a train weighing 300,000 pounds, it made the run in 6 hours, 41 minutes and 40 seconds at an average speed of 68.54 miles an hour.

The Lake Shore and Michigan Southern railroad claims to have beaten this on Oct. 24, 1895, with a special train from Chicago to Buffalo, a distance of 610 1/2 miles, with a train weighing 304,000 pounds.

The run was divided into five stages, and the first, of 24 1/2 miles, was made at the rate of 61.33 miles an hour; the second, of 133 1/2 miles, at the rate of 64.23 miles an hour; the third, of 107 1/2 miles, at 60.06 miles an hour; the fourth, of 55 1/2 miles, at 60.99 miles an hour; and the fifth, of 80 miles, at an average rate of 73.91 miles an hour.

The total distance was covered in 8 hours, 1 minute and 40 seconds, or a time from station to station, which gave an average speed, including stops, of 61.81 miles an hour.

Remarkable as these results were, it would not be fair to compare them with a run of twice the distance of the longest of them, for as distances increase the difficulties of making high speed also increase. Grades, adverse winds, and all the other elements which work against high speed multiply usually in a sort of geometrical progression to make difficulties.

To give some idea of this, the greatest runs which the New York Central and Hudson River railroad has recorded for trips across the continent will offer a fair basis of comparison.

The first of these was one with the China and Japan mails from Vancouver to New York by way of the Canadian Pacific, the Home, Watertown and Ogdensburg and the New York Central and Hudson River roads.

The distance traveled was 3,212 miles, and the time was 3 days 12 hours and 42 minutes, or an average speed of 37.9 miles an hour.

For reasons that private trains are seldom run at high speeds because of the conditions that would be required to run them. In the first place, every train on the road that would be likely to be in their way must be aside tracks, and in addition to these the chances or perhaps hundreds of freight and passenger trains, which usually travel over the lines by slightly keeping clear of the tracks of scheduled trains.

Secondly, all have to be run by special orders to keep them out of the way of a fast special.

The less of time this occasioned to fast trains would amount to a large sum, and this would have to be added to the railroad man's usual estimate of what it costs a mile for the actual cost of running such a train.

It is doubtful if such a train to run such a distance at double that price, which would make such a run as Mr. Mahan's cost \$1,000 or more.

The most remarkable part of his run was in the last 200 miles, during which the grade goes up with a rise which finally, at Denver, is a full mile above the starting point.

AN UNHAPPY DUCHESS.

Coely of York and the Ravages of the War of the Revived not most of the nobility of England, though the planter's mother suffered little, and many of the nobles suffered much.

The war of the nobles suffered much, and many of the nobles suffered much. The planter's mother suffered little, and many of the nobles suffered much. The war of the nobles suffered much, and many of the nobles suffered much. The planter's mother suffered little, and many of the nobles suffered much.

THE COOK'S MISTAKE.

HOW A NICE POINT IN COWBOY ETIQUETTE WAS SETTLED.

Mike Taster Exercised One of the Foreman's Privileges, and the Cook Obeyed—Only One Way to Settle the Matter, and That Way Was Employed.

We were all waiting for dinner, sitting about the table in the dining hall, when a man in a slicker, and the cook was angry. It had rained for four days. The camp was on the open plain, away from timber, and wet cow chips are a mighty poor fuel; also the acid smoke arising from them is an unbecoming inducement. Under the wagon was a rawhide sling, in which the cook kept a store of sticks for fuel. He had been charged every six hours. Another important feature is the fact that Mr. Rivley's invention weighs but 160 pounds, while the lightest now on the market weighs 550 pounds. The latter cost \$1,000, while the one that has just been patented can be sold for \$180.

THE FIRST NATIONAL BANK OF FRESNO.

The Oldest Bank in Fresno County.

Capital, \$100,000. Surplus and undivided profits, \$35,000.

O. J. Woodward, President. J. K. Kennedy, Vice President. J. K. Kennedy, Cashier. W. E. Baker, Assistant Cashier.

The bank transacts a general banking and exchange business, and is a member of the United States and National Banks.

Paid up capital, \$100,000. Surplus and undivided profits, \$35,000.

J. K. Kennedy, President. J. K. Kennedy, Vice President. J. K. Kennedy, Cashier. W. E. Baker, Assistant Cashier.

The bank transacts a general banking and exchange business, and is a member of the United States and National Banks.

Paid up capital, \$100,000. Surplus and undivided profits, \$35,000.

J. K. Kennedy, President. J. K. Kennedy, Vice President. J. K. Kennedy, Cashier. W. E. Baker, Assistant Cashier.

The bank transacts a general banking and exchange business, and is a member of the United States and National Banks.

Paid up capital, \$100,000. Surplus and undivided profits, \$35,000.

J. K. Kennedy, President. J. K. Kennedy, Vice President. J. K. Kennedy, Cashier. W. E. Baker, Assistant Cashier.

The bank transacts a general banking and exchange business, and is a member of the United States and National Banks.

Paid up capital, \$100,000. Surplus and undivided profits, \$35,000.

J. K. Kennedy, President. J. K. Kennedy, Vice President. J. K. Kennedy, Cashier. W. E. Baker, Assistant Cashier.

The bank transacts a general banking and exchange business, and is a member of the United States and National Banks.

Paid up capital, \$100,000. Surplus and undivided profits, \$35,000.

J. K. Kennedy, President. J. K. Kennedy, Vice President. J. K. Kennedy, Cashier. W. E. Baker, Assistant Cashier.

The bank transacts a general banking and exchange business, and is a member of the United States and National Banks.

Paid up capital, \$100,000. Surplus and undivided profits, \$35,000.

J. K. Kennedy, President. J. K. Kennedy, Vice President. J. K. Kennedy, Cashier. W. E. Baker, Assistant Cashier.

The bank transacts a general banking and exchange business, and is a member of the United States and National Banks.
